

No	Species	Maturity	Condition	Observations and comments	Recommendations for Work	Priority
14	Common lime (<i>Tilia x europaea</i>)	FM/OM	A/B	Thinner canopy than neighbouring trees Root damage to rear and some exudation on trunk Apparent history of branch loss, dead wood over carriageway, suggestion of inclusion at fork Epicormics	Examine tree more closely whilst work being undertaken Remove dead wood Remove epicormics	1
15	Common lime (<i>Tilia x europaea</i>)	FM/OM	A/B	Large diameter dead wood in canopy, small hanger by power line Epicormics	Remove dead wood Remove epicormics	1
16	Common lime (<i>Tilia x europaea</i>)	FM/OM	A/B	Leans diagonally across highway No appreciable dead wood Epicormics	Remove epicormics	2
17	Common lime (<i>Tilia x europaea</i>)	FM/OM	A/B	Dead wood over highway Epicormics	Remove dead wood Remove epicormics	1
18	Common lime (<i>Tilia x europaea</i>)	FM/OM	A/B	No significant dead wood but shrouded in epicormics Tight canopy	Remove dead wood Remove epicormics	1
19	Common lime (<i>Tilia x europaea</i>)	FM/OM	A/B	No significant dead wood but shrouded in epicormics Tight canopy	Remove dead wood Remove epicormics	2
20	Common lime (<i>Tilia x europaea</i>)	FM/OM	A/B	Open crown No sign of significant dead wood Epicormics	Remove epicormics	2
21	Common lime (<i>Tilia x europaea</i>)	FM/OM	A/B	No significant dead wood but shrouded in epicormics Tight canopy	Remove dead wood Remove epicormics	2
22	Common lime (<i>Tilia x europaea</i>)	FM/OM	A/B	No significant dead wood epicormics	Remove epicormics	2
23	Common lime (<i>Tilia x europaea</i>)	FM/OM	A/B	No significant dead wood but shrouded in epicormics Tight canopy	Remove dead wood Remove epicormics	2
24	Common lime (<i>Tilia x europaea</i>)	FM/OM	A/B	Some large diameter dead wood in crown Epicormics	Remove dead wood Remove epicormics	1
